**REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art teaches an active matrix substrate, comprising: a substrate body including a plurality of data lines and a plurality of scanning lines provided so as to cross each other; a plurality of thin-film transistors electrically connected to the data lines and the scanning lines; a plurality of pixel electrodes electrically connected to the plurality of thin-film transistors, respectively; and an interlayer insulating film; the thin-film transistors and the scanning lines constituting gate electrodes. The prior art of record does not teach, in combination with the limitations supra, the gate electrodes being formed in separate layers, and electrically connected via contact holes penetrating the interlayer insulating film between the gate electrodes and the scanning lines; and the scanning lines constituting a layer positioned above a layer constituted by the data lines but under a layer constituted by the pixel electrodes, and a pattern of the scanning lines, a pattern of the data lines and a pattern of the pixel electrodes being partly overlapped in a top plan view.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
